# THE 2025/26 COLLTEx SKIN RANGE

## Product Overview

	Description	Target Group	Sales Pitch
 <p><b>TÖDI CRYSTAL</b></p> <ul style="list-style-type: none"> <li>- Mohair/polyamide mix allrounder</li> <li>- Good glide and grip</li> <li>- For beginners to pros</li> </ul> <p>MIX 65% MOHAIR + 35% POLYAMID 102 G (6X150 CM)</p> 	<p>TÖDI – the great classics. Their mohair-polyamide mix guarantees top grip, glide, and robustness.</p>	<p>TÖDI: for all-rounders who want the best-sellers –robust, durable, with a reliable grip and good glide.</p>	<p>Efficient grip Smooth glide Robust Small pack size</p>
 <p><b>LUCENDRO</b></p> <ul style="list-style-type: none"> <li>- Techfibre weave</li> <li>- Excellent grip</li> <li>- For beginners and fun skiers</li> </ul> <p>100% TECHFIBRE 111 G (6X150 CM)</p> 	<p>LUCENDRO – the special &lt;Techfibre&gt; weave guarantees top grip and a good glide.</p>	<p>LUCENDRO: for beginners or connoisseurs of a good grip with no danger of slipping backwards.</p>	<p>Effortless grip Anti-slip Good glide Abrasion-resistant</p>
 <p><b>PALÜ</b></p> <ul style="list-style-type: none"> <li>- Pure mohair</li> <li>- Excellent glide</li> <li>- For experienced touring skiers</li> </ul> <p>100% MOHAIR 105 GRAMM (6X150 CM)</p> 	<p>PALÜ – 100% mohair skins for a perfect glide – especially in mid-winter in extreme cold and on fresh snow.</p>	<p>PALÜ: for pros who love high-Alpine tours, value a good glide, and master their technique.</p>	<p>Top glide Ideal for cold snow conditions For ski mountaineering Less abrasion-resistant</p>
 <p><b>RACE</b></p> <ul style="list-style-type: none"> <li>- Specially woven mohair</li> <li>- Maximum gliding performance</li> <li>- For ambitious and competitive skiers</li> </ul> <p>100% MOHAIR 98 G (6X150 CM)</p> 	<p>RACE – special-weave, 100% mohair skins designed for top glide, albeit somewhat at the expense of grip.</p>	<p>RACE: for competitive skiers, who want light-weight, practical skins with a perfect glide for training and competition.</p>	<p>Perfect glide Fast progress Less grip Less abrasion-resistant</p>

All ski skins feature the proven hot-melt self-adhesive layer.  
Advantage: the ski skins stay in place in all weathers and all types of snow.

All ski skins also feature the Colltex Drybase coating.  
Advantage: the ski skins absorb virtually no water and stay light and dry.

All skins also benefit from the Colltex Edge treatment.  
Advantage: the edges of the skins will not fray.

Colltex has long abandoned using fluoride for many years.  
Advantage: respect of nature.

Skins are supplied with:

Depending on cut, cutters and a tail-hook kit are included.

## MAINTENANCE

### Eco skinproof

Ecological waterproofing of ski skins. Improved glide, less water absorption and less snow build-up. Spray on dry skins and leave to dry for 2 hours. Art.-Nr. 10569

### Pro skin

Alternative to the protective nets. The socks are easy to use and protect against skins sticking together, dirt, and drying out. Art.-Nr. 7105

### Natural skin+ ski wax

100% organic wax for ski skins and coating. Improved glide and less snow build-up. Ideal for when you're on the go. Art.-Nr. 16809

### Protective nets

Reusable, the nets prevent the skins from sticking together, dirt, and drying out. Art.-Nr. 5272 (140 mm, 2 x 95 cm)  
Art.-Nr. 5271 (90 mm, 2 x 95 cm)  
Art.-Nr. 7372 (140 mm, roll 30 m)

### Express universal wax

Paraffin wax for ski skins and coatings. Improved glide and to prevent snow build-up. Ideal for when you're on the go. Art.-Nr. 4437

### Ski-skin bag

To transport and store ski skins. Store skins in the bag once they are dry. Art.-Nr. 85101

## NEW COATINGS

### Hotmelt tape

For a complete renewal of the hot-melt adhesive layer. Remove old adhesive as thoroughly as possible with a spatula and heat. Apply the new adhesive with an iron.

Art.-Nr. 15000 (150 mm, 4 m)  
Art.-Nr. 15001 (110 mm, 4 m)  
Art.-Nr. 15003 (150 mm, roll 50 m)

### Quicktex

The solution for express re-coating in the mountains. Small, light-weight, and effective on all skin brands. Art.-Nr. 81301

### Hotmelt adhesive 75ml

For total or partial hot-melt re-coating. Remove old adhesive with a spatula and heat. Apply the new adhesive with a roller or spatula. Art.-Nr. 81101

### Recoating Service

The complete service for end users, e.g. when the sports shop has no time to pack and ship. Transport and re-coating are included in the price. Art.-Nr. 16293 (CH / FL) with pre-stamped shipping bag. Art.-Nr. 22352 (DE / AT) with address label. Customer has to pay for outward shipping.

### Quickspray

The best solution for express re-coating just before the tour. Drying time: 15 minutes (not suitable for re-coating on a tour). Art.-Nr. 81301
